ECologically Engineered for a Green Planet!

- ***Brighter***
- ***Energy Efficient***
- ***Less Glare***
- ***Longer Lasting***
- ***Reduced Maintenance***

ECO SERIES DOOR

The Eco door with the most advanced technology available is engineered to bring you the most energy efficient door on the market today. With the features listed below you can see why the ECO door is designed with a Green Planet in mind.

FEATURES:

The ECO door incorporates a 2 pane Low E gas filled glass package with a non heated door frame rail for an Energy Free EISA compliant cooler door. Designed with low wattage frame heaters, superior insulated frame construction and a Low Voltage, Low Wattage LED lighting system CDS delivers the most energy efficient brilliantly lit customer friendly door available.

LED Lighting VS Florescent Lighting

The LED Door

The Florescent Door

CDS DOORS WITH HI-DEF LED LIGHTING:

Increase your sales with the exclusive CDS Hi-Def LED lighting system designed with an anti glare guard for the mullion cover that completely hides the entire LED fixture providing a view from the side with no glare from an exposed florescent lamp and makes your products jump off the shelf.

FREE LIGHTING:

To see how fast these lights will pay for themselves ask a sales associate today to compare the cost of operation between the traditional florescent lighting and the exclusive LED technology offered by CDS.

STANDARD FEATURES:

All the quality components found on the rest of the CDS doors are designed into the ECO door. The Kwik Level, Kwik Torque, Kwik Lock hold open system, triple seal gasket, and the triple bearing hinge pin give you the quality and dependability you have come to expect from a CDS manufactured product.

The Eco Series Doors

ADVANTAGE SERIES

The Advantage Series door provides elegant styling for the upscale store environment. With all the features of our Legacy Series doors including the Kwik Torque™, Kwik Level™, Triple Bearing top hinge pin, Triple Seal Door Gasket, and the most innovative Hold Open System™ on the market today. The Advantage difference is in the RLS (Refracted lighting System), complete Reversibility a flat mullion design, Energy Free Cooler Door, and an extra measure of insulation for the frame and door.

• Exclusive Kwik Lock™ Hold Open & Kwik Torque™ System

Holds the door open at a full 90° angle. Simply pull the door to a 90° angle and it smoothly locks in place. Release the door by pushing lightly for a quick air tight seal.

• RLS Lighting System

With its unique design this lighting system increases the amount of light at the center of the shelf. The T-8 lighting and electronic ballast bring to life the vibrant colors on all your packaged product.

• Advantage Series Door Plug

For heated door applications. This is the smallest profile available. The unique plug design and flat mullion allow this door to be easily reversed in the field.

The Enhanced Details Are The Advantage Difference!

- Triple Bearing Top Hinge Pin
- Kwik Torque™ Closure Adjustment
- Kwik Level™ Door Alignment
- Triple Seal Gasket
- Positive Hold Open Lock
- Field Reversible

LEGACY SERIES

Styling And Performance Make All The Difference!

With over 50+ years of hands-on experience comes the finest quality door on the market with features that put the Legacy Series door in a class of its own.

FEATURES:

This unique design includes a hinge system which opens the door away from the frame to reduce the possibility of fingers being pinched between the frame and the door.

• **Hinge System**

Super strong machined aluminum triple bearing top Hinge Pin reduces friction increasing the life of the hinge system.

• **Exclusive Kwik Level™ Door Alignment System**

Placed at the top of the door for simple and easy adjusting from one door to the next.

• **Lighting System**

T-8 lighting with electronic ballast provides superior light.

• **"T" Mullion Design**

The T mullion design of the Legacy Series doors assures strength and support for the walk in box header panels.

• **Kwik Torque™ Door Adjustment**

This unique design makes adjusting tension a snap. Just 3 to 4 clicks and the door shuts and seals with ease.
