

Location

With three factories located on the East and West coasts and in the Heartland, we are easily accessible in the U.S. We are in close proximity to infrastructure, including ports for shipping products on time to offshore sites.

Four Reasons Your Walk-In Application Needs Imperial Brown Engineering

- 1** Remarkable design and customized engineering create the exact system your cold storage environment demands
- 2** Durable, high quality manufacturing to endure harsh working conditions
- 3** Designed and manufactured by experienced engineers and technicians who own the company
- 4** Uncompromised commitment to product quality and customer support

The Cold Logic Behind What Makes Imperial Brown Walk-ins A Better Choice... ...For Grocery Stores/Convenience Stores

< Custom Design:

- Built to your exact specifications to maximize effective use of space
- Optimizes shelving space and layout

< Superior System Life:

- Features our “hybrid” construction – cost effective, nominal size soft-nose panels wherever possible, combined with durable high-density structural framed panels made to exact sizes for ceiling panels to span long distances and reinforced floors to stand up to pallet jack traffic
- We stand behind all of our panels with a 15-year warranty

< Outstanding Energy Efficiency:

- Features environmentally friendly polyurethane foamed-in-place construction providing the highest insulating values in the industry
- Uses smart design engineering throughout the system to produce exceptionally high energy-efficiency
- Tested and validated by Food Service Technology Center to qualify for utility company energy-efficiency rebate programs
- Meets or exceeds all federal and state mandated energy-efficient requirements including Federal EISA and California Title 20 and 24

- Featuring precise engineering and innovative design for exact and constant temperature control meeting your specific requirements
- Calling upon innovative manufacturing methods and components to enhance operation and system life for the harshest cold storage environments
- Using the most advanced technologies for highly rated energy efficiency
- Backed by an experienced organization with uncompromised commitment to product and customer satisfaction
